Current Bid Opening Date: March 7, 2024

The following item on the proposed project is modified as follows. All other items remain the same:

1. The Town will allow a new lighting controller to be provided and installed to operate the proposed field lighting system. This controller may be any make and model which will operate the system correctly, have remote operation ability, and be able to integrate, or operate, the Towns existing lighting facilities at this complex. The controller and its installation will be an additional item in the Bid Tab and will be paid for by the Town. However, when evaluating bids, the bottom-line amount will be considered regardless of whether or not a new lighting controller is proposed.
